Project title	Floe - Look Up
Project description	<p>Floe is a spectacular large scale projection event and soundscape by artists Anna Heinrich and Leon Palmer, that will 'virtually' transform and remodel the architecture and facade of The Deep. This ambitious work will be a dramatic, monumental, expression of the geological forces and biological processes which originally inspired the appearance of The Deep. It will reflect a sense of the rich aquatic life contained within the building as the light penetrates and shafts through the depths of its maritime environments.</p> <p>People will be able to see Floe from the opposite side of the River Hull, by the C4DI building, from Friday 8 to Sunday 10 December. It will be presented between 6pm - 10pm each evening and is free to view. There is no need to book and visitors can come back to view the work as many times as they like.</p> <p>Anna Heinrich and Leon Palmer are two UK based artists who have worked in collaboration since 1991. Their artworks range from photographic and light installations to large scale projection events and public art interventions.</p> <p>This project is the final co-commission between The Deep and Hull 2017 as part of Look Up - a programme of temporary installations in public places and spaces around the city curated by Andrew Knight and Hazel Colquhoun.</p> <p>Floe takes place during Substance, 10 days of music, art installations, performance and provocations, celebrating this City of Culture year and exploring the culture, creativity and the future of the North. This includes two other installations around the city, Jason Bruges Studio's Where Do We Go From Here? and Marshmallow Feast's A Colossal Wave!</p>
