To educate / stimulate my children	8.70%	2
Because it's part of Hull UK City of Culture 2017	47.83%	11

## Audience Comments

### General

Really enjoyed the whole experience and liked how it made you think more about the future and how we affect the outcome of it.

Made me think we are small but can create changes in everything

### Hull

Very thought provoking, I won't be around in 80 years but my future family will. It is quite scary were the world is going and how it's developing and changing. My parents are dead but I'm sure things that are happening today were never thought of, or where they? Technology is fabulous but also advancements sometimes happen so quick.

I wanted to say thank you for the ride in the future which you gave me on Saturday. It was an amazing once-in-a-lifetime opportunity and it was such a privilege and I'm not going to forget it [...] I've been thinking about the things we were talking about and that I'm going to do my best to try and be a positive change on the city [...] the thing about life is about looking for love and giving love [...] I feel a bit self-conscious saying all this but I think it's really important to say it. And to feel like I'm doing my bit and I'll keep that promise when I put down this phone.

### Aarhus

Thank you so much for a fantastic and absolutely amazing journey. This will stay with me for long. Amazing images created as we walked! And a strong emotional experience. Cannot recommend this enough.

A beautiful and thought-provoking experience. Thank you.

It has been just great. Nothing I had experienced before. Mindblowing!

## Participant feedback

### Workshops

It was a fantastic opportunity for our children to think about the future and work with other schools.

- Teacher from schools group

The level of discussion was excellent. Would love to be further involved.

- Over 60s workshop participant

I thought it was a very diverse, engaging session. Only bad part was I didn't want it to end!

- Young People's workshop participant

Very interesting workshops that did not feel forced. It worked well with discussions and I didn't feel like I needed to hold back my thoughts.

- Exchange participant

### Aarhus

The volunteers have only mentioned positive things about their experiences and they seem to have found the whole event and their tasks very exciting.

- Elisabeth Bjarløv, Aarhus 2017 Volunteer Leader

It was such a great opportunity for me to work with you and the whole Blast Theory crew on this fantastic project. I'm glad so many people liked it; and whenever someone exited one of the bedsits with tears in their eyes, it just made me feel so happy, seeing their thoughtful expressions was absolutely rewarding. In a way, this whole experience changed the perception of some people and that is just amazing.

- Kalina Stoykova, 2097: Live in Aarhus steward

Both the filming and event parts of the experience were challenging and rewarding. I enjoyed working with Blast Theory team members, had the impression I was part of the team as well. No matter the pressure of the projects it felt like everything would end up well, as it did.

- Konstantinos Balkamos 2097: Live in Aarhus steward and Production Trainee on films

### Hull

I really enjoyed been a part of the project and would jump at the opportunity to be involved further, I am also super excited about the film!

- Stacey Windley, young people's exchange participant, interviewee and placement on film shoot in Hull
