**The following designs demonstrate the development of the physical 'tape art' structure, for the installation 'Vantage Point'. The projected elements will be overlaid and mapped to these designs, adding light, movement and depth.**

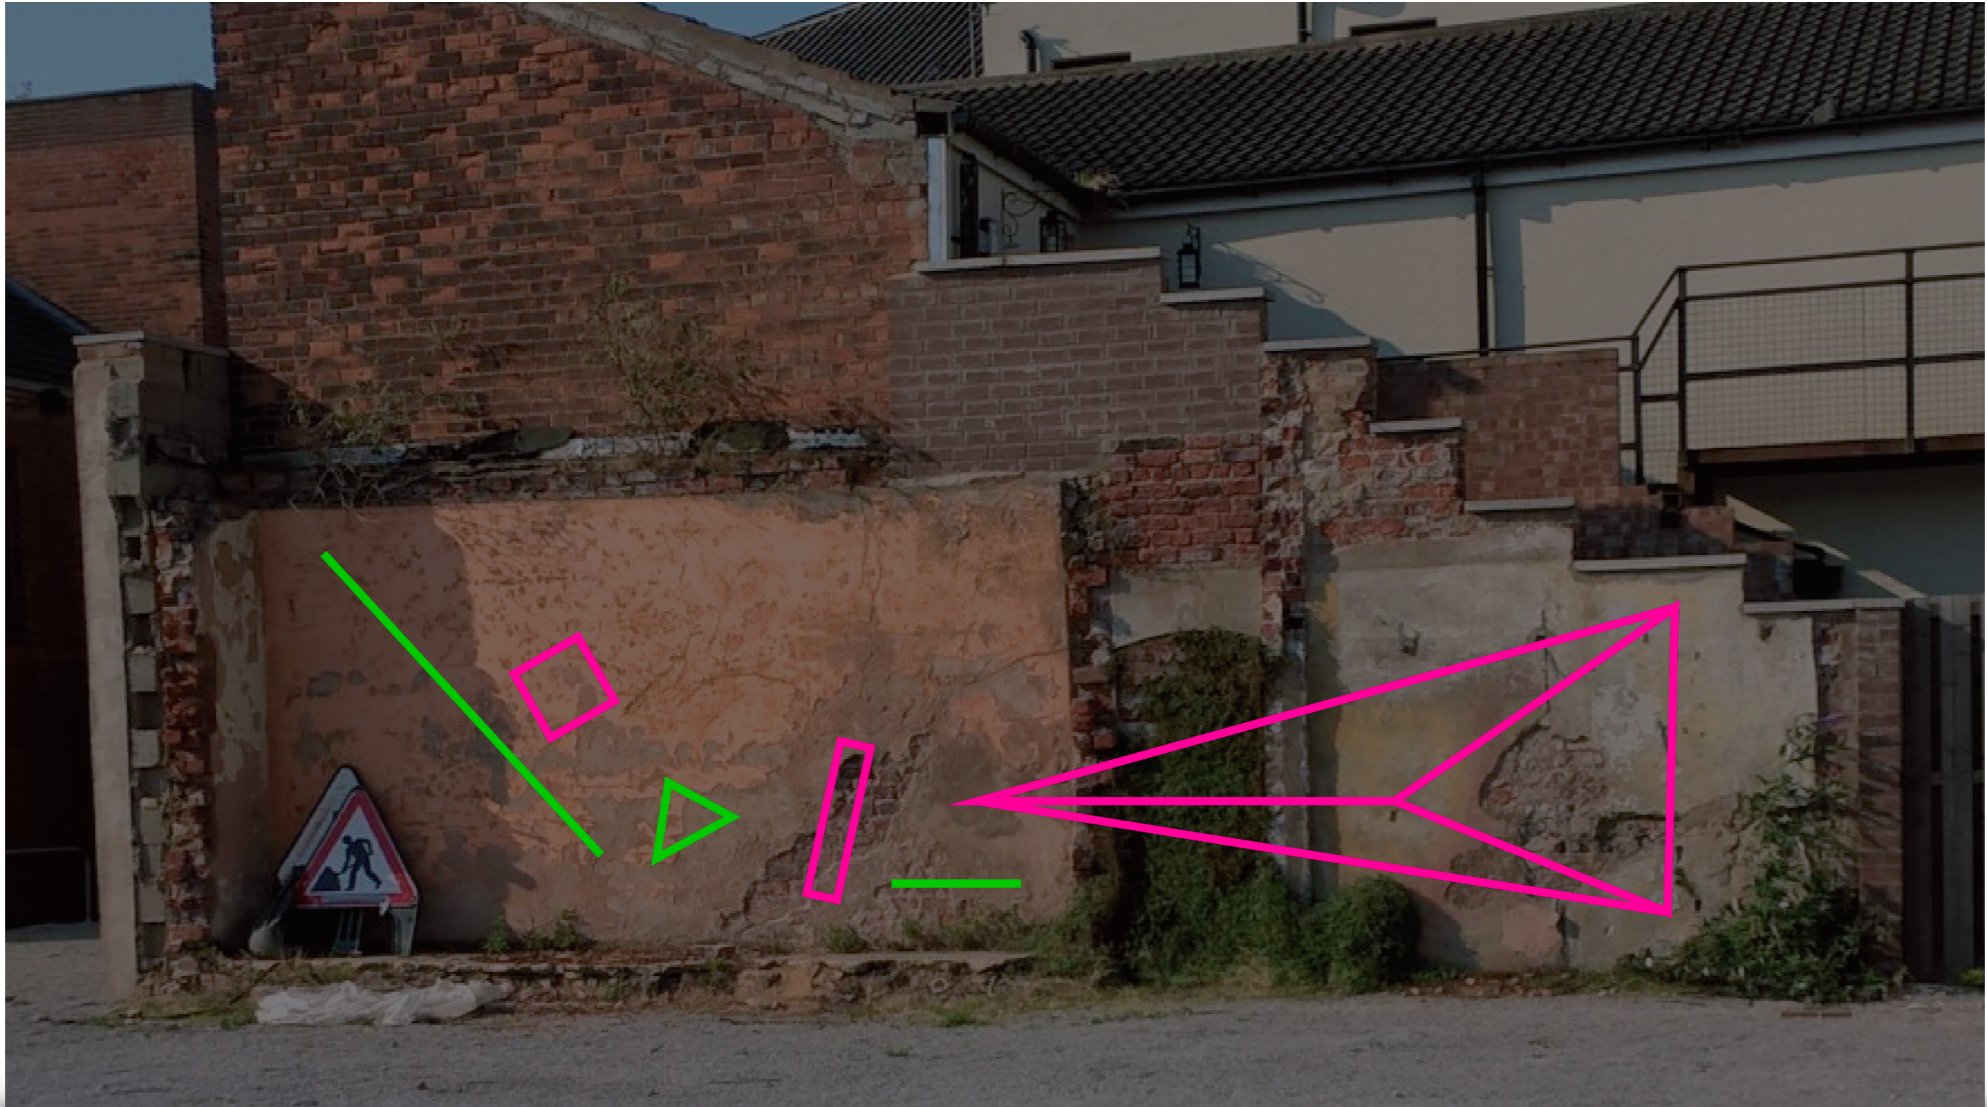

**The designs are anamorphic, which means that a single vantage point will give the illusion of the image being 3D. Once away from this point, the perspective of the design will seem randomly geometric.**

**Each has been considered to give particular opportunities for audience members to stand within and interact.**

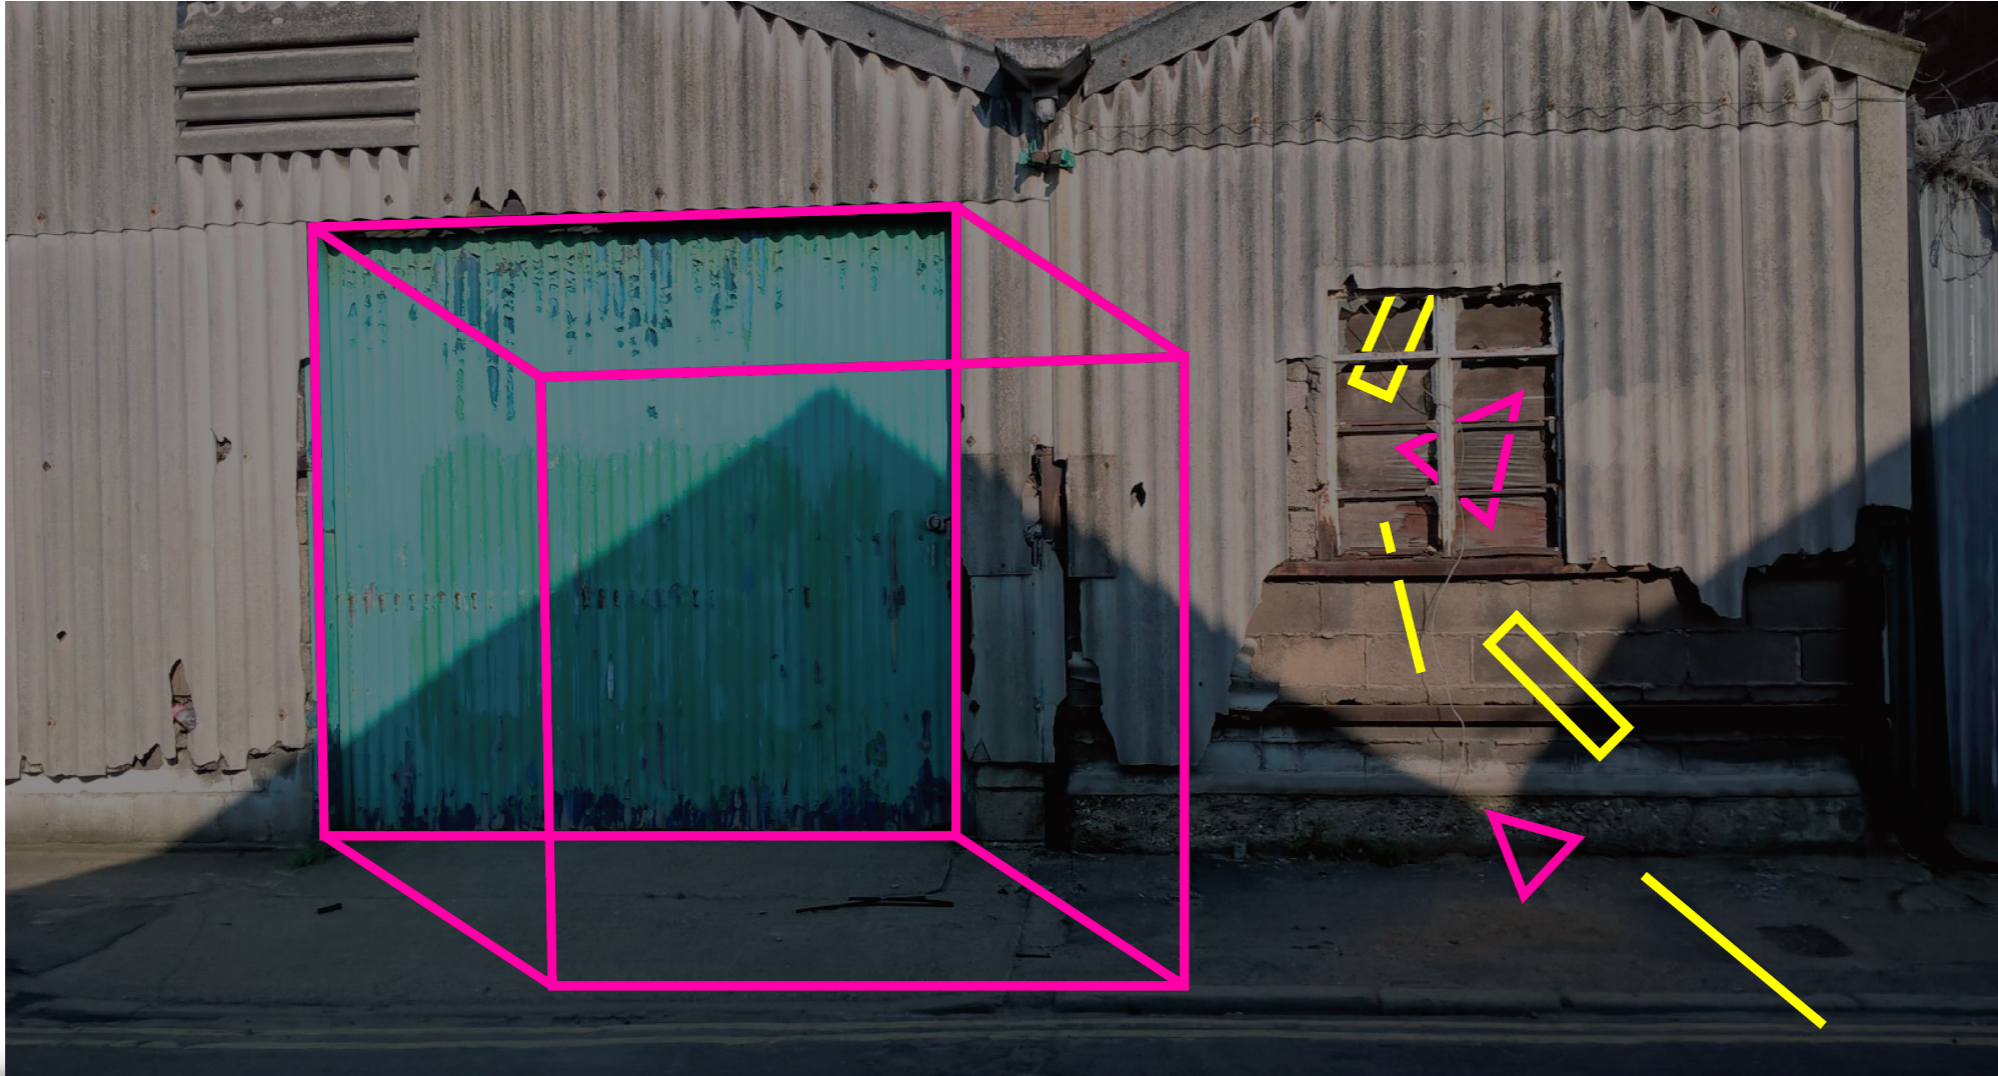

Site 1 - The Wash

Site 2 - Rear of Humber St

Site 3 - Side road ( off Humber St )
