

We gathered the voices of many people, from across the city and brought them together to one site

RE-REDIFFUSION'S

VOICE PARK

We are on a mission to explore the power of Hull's voice to find ways to hold, touch and walk amongst it. To explode the very act of speaking and transform it into a collective activity.

Inspired by the original Rediffusion company who distributed voices across the city via their network. We have formed Re-Rediffusion with the idea of reversing the network through Project VEAR. Gathering and distilling voices from across the city, to play with them anew in Voice Park.

Thank you for joining us in our quest to find the 'Essence De Voix'.
