- having provocations would have helped to start discussions around creative session
- would be good to build in a break for the morning session
- add themes and update pictures
- positive response from teachers / children when leaving
- press set up could have allowed more time
  - quite a lot of requirements from press from timescode
  - not clear on cost / need
  - needed activity for press call to keep children entertained
- dynamic risk assessment
  - added different table layout due to size
- "it's really nice to be creative, kids never just get to be creative"
