[FREETEXT]

The camera moves in on HESSA and she looks directly at the camera.

Hessa: "You told me the name of the person who would remember you. Say their name to yourself again now."

HESSA: "This is their future. This is the world they will have to live in . I can only see you once more after today so I have one question for you. What is the legacy that you will leave them? That you will leave us? Think about the change you'd like to make for them. The thing that you will leave behind."

Take your time. I will call you one last time to hear what you have to say."
