Neighbourhood Touring Network - Consultation

Introduction

- Set the scene for Hull 2017 and the UK City of Culture year
- Explain the role of Neighbourhood Touring Network
- What we will use this information for

ACTIVITY 1: Pick your perfect deck

- Participants are invited to choose up to 8 cards from the deck, that they would consider as a great evening of entertainment and cultural activity.
- PROMPT: Either fan the cards out and get them to pick at random then choose it or not,
 OR give the full deck to the individual to explore.

Record their 8 choices in the table below:

E.g. Ci1 = CIRCUS 1

D6 = DANCE 6

F4 = FAMILY 4

Ca3 = CABARET 3

Explore the following questions with the individual / group:

- Have you seen anything like this before?
- YES / NO (Circle)
- Why did you go see it? Are you a regular? Special occasion? Was it a present?
- Where and when did you see it? OR Why have you not been to see anything like this?
- What was the last thing like this you saw?

Make detail notes below and capture quotes:

ACTIVITY 2: Trying new things!

We now need to build a deck of 8, with 1 choice from each category.

- If participants have chosen 2 x Dance (ask them their preference)
- If they have not chosen a Circus, explain the artform and show them the set of 6 and ask them to pick one.

Record the second deck of 8 below:

Ci	D	Fi	Ca	Т	Со	м	Fa
				·			

Explore the following questions with the individual / group:

Discuss why they have made these choices.

ACTIVITY 3: Where?

• Would you go see these things in the city centre at a venue like City Hall?

YES / NO (Circle)

- Would you be more likely to see these shows if they took place in a community venue or a space like
 this one (if consultation taking place in potential venue)
 YES / NO (Circle)
- Would you travel to a different city to see a show like this?

YES / NO (Circle)

ACTIVITY 4: Price

Give the group 3 tickets - they can choose any show from across the 2 decks of 8 - what would they pay?

TICKET NO.	SHOW?	AMOUNT PAID
TICKET 1		
TICKET 2		
TICKET 3		·

Do the same exercise for an unusual show we select to test a show they wouldn't normally see ...
